I got your E-mail comments and the subsequent telephone call telling me to consider them in light of the fact they were not included in the official letter from NMED. The comments will be considered and responded to. Thanks for your input.

Harold -

Kindly disregard these comments sent yesterday. I have been informed that you should only consider the official comments submitted from NMED, not separate comments from individual bureaus. If you haven't received our official comments by your deadline, please call Gedi Cibas in the NMED Secretary's office at 827-2176. Sorry for any confusion. Thanks!

Steve
