Steve-

Since I will be in Santa Fe today, I was hoping to pick up some information, to save you faxing or postage. I hope you're around, and if so, I'd like to discuss a couple of things. I'll probably be there around noon. If you're not around, could you leave the following for pickup:

1. Shipment and receipt dates for KN001202.
2. WWIS information about shipments received since December 26.
3. Current repository report
4. Any recently received Waste Stream Profile forms.
5. Any further written information from DOE about drum age criteria or information about upcoming permit modifications, including any handouts from the quarterly meeting on those subjects or the other agenda items.

*Responded to all issues when Don visited 1/18/01*

Please note that I still have not received the electronic version of the SRS audit, which I would appreciate receiving.

Thanks for your help. Hope to see you.
