Jody:

This message is to let you know that upon our review of the above-referenced document (dated April 26, 2001), we noticed that the water level measurement summary page for the month of April for all existing wells was missing (typically found as page 3 or 4 in the reports). Can you please e-mail me (or send regular mail) the missing information. As you are probably aware, NMED has moved to the following address:

2905 E. Rodeo Park Dr.  
Building E  
Santa Fe, NM 87505-6303

Please note that our phones and fax machine are not yet in service. Should you have any questions, please do not hesitate to e-mail us or use Steve Zappe's cell phone (#505-660-0353). Thank you.

Will Fetner.
