

STEVE ZAPPE

I continue to find the WIPP "info" sessions to be an exercise in disempowerment of our community.

At the 3rd session I attended incomplete information (i.e. no list of chemicals to be added to WIPP dumping), and no attempt to allow the community to have comments taken at the session, forcing us to steal more time from our day, and for those who can't - a missed opportunity to get feedback.

Thanks,
STEVE ZAPPE
