Re: Permit Modification

Dear Sirs,

I support the request for the Centralized Waste Confirmation at WIPP. I believe that the proposed activity can be performed safely at WIPP and that WIPP itself is safe.

It will be much more economical to have this modification approved. It will also be much safer to have this waste removed from the surface and stored in a proper place.

It makes sense to do anything that speeds up waste disposal to protect the environment and save the taxpayers money.

Thank you for your attention to this matter.

Sincerely,

010935
