Jody:

NMED is in receipt of the above-referenced monthly report dated October 2, 2001; however, our copy is incomplete. The report is missing the water level elevation update tables for wells H-03b3 through H-03d/49 (PIP). We do have the cover letters, summary comments, September's water level summary table for all wells, and the water level elevation update tables for the first 9 wells (AEC-7 through H-03b2). Please mail the missing data to my attention at your earliest convenience.

Thanks. Will.
