RE: Submittal of Electronic Drawings

Dear Mr. Zappe:

The purpose of this letter is to respond to your request of August 31, 2001 for additional copies of figures that are more reproducible. You indicated that NMED wanted to develop an electronic file to allow easier access of these figures for review. It is our understanding after discussing your request with you further that NMED has had difficulty developing an appropriate electronic file for the figures in question because the figures submitted are not appropriate for scanning into electronic format, i.e., color schemes, size of print. In response to your request, we have taken the initiative to develop an electronic version of all figures that were requested. It is our belief that the enclosed electronic file will provide the needed figures and that they will be more readily copied, printed, or viewed electronically than would be possible if we simply submitted further physical paper copies.

If you have any further questions, require additional information or clarification, please contact Mr. H. L. Plum at (505) 234-7462.

Sincerely,

Cynthia A. Zvonar
Assistant Manager
Office of Regulatory Compliance
