RE: Transmittal of the Objective Evidence for Qualifying Pre-WAP Real-Time Radiography (RTR) Data for Rocky Flats Environmental Technology Site (RFETS)

Dear Mr. Zappe:

Enclosed for your information is an example of a batch data report and RTR tape that was generated by RFETS to qualify RTR data collected before the implementation of the Hazardous Waste Facility Permit "Waste Analysis Plan" (WAP). RFETS used Method 2 of the Carlsbad Field Office (CBFO) procedure, DOE/CBFO-00-3174, *Requirements for Evaluating and Documenting Waste Analysis Plan Compliance for Testing Batch Data Collected in Accordance with Waste Characterization Program Approved by the Carlsbad Field Office Prior to November 26, 1999*, (DOE/CBFO-00-3174), to demonstrate that the data are compliant with the requirements of the WAP that was issued on February 25, 2002.

The CBFO has evaluated the objective evidence provided by RFETS and has found it acceptable. If you have any questions, please contact me at (505) 234-7357.

Sincerely,

FOR  
Kerry W. Watson  
CBFO Assistant Manager  
Office of the National TRU Program
