Re: HWB 02-01 (M) - Class 3 DAC Modification

Dear Mr. Domenici,

The NMED Hazardous Waste Bureau requests that the Permittees provide information showing the inputs and outputs of the model runs used by DOE to determine the DAC values proposed by DOE in this proceeding. In addition, we request that DOE provide a flow chart or other explanation of the model runs. The purpose of this information is to allow our experts to corroborate the DAC values proposed by DOE in this modification.

We appreciate your expedited cooperation in this matter. Should you have any questions, please call me.

Sincerely,

Charles F. Noble
Assistant General Counsel
(505) 827-0127
