Mr. Frank Marcinowski, Director  
Radiation Protection Division  
U.S. Environmental Protection Agency  
501 3<sup>rd</sup> Street, NW  
Washington, DC 20001

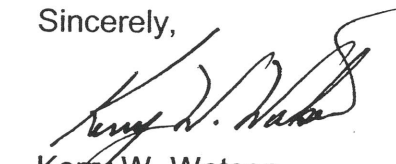

Subject: Submittal of Required Documentation for RFETS Classified Waste

Dear Mr. Marcinowski:

In response to your letter dated February 11, 2003, the Carlsbad Field Office is providing the required documentation from the Rocky Flats Technology Site (RFETS) for the classified waste that is to be shipped to the Waste Isolation Pilot Plant for disposal. This package contains the estimated number of drums of classified waste expected to be shipped from RFETS and copies of the procedures and *TRU Waste Characterization Program Quality Assurance Project Plan (QAPjP)* that have been modified to include any special provisions for characterizing the classified waste. We have also included a summary of the changes made to the procedures and the QAPjP.

If you have any questions, please contact me at (505) 234-7357.

Sincerely,

Kerry W. Watson  
CBFO Assistant Manager  
Office of National TRU Program
