Subject: Submittal of 2003 Annual Update to the Facility Work Plan, WIPP Hazardous Waste Facility Permit, EPA ID Number NM4890139008

Dear Mr. Zappe:

Based on conversations of February 11 and February 12, 2003 between you and Mr. H. L. Plum of the Carlsbad Field Office, the Department of Energy (DOE) understands that further updates to the Facility Work Plan (FWP) are not appropriate at this time. This is because there is pending action by the New Mexico Environment Department (NMED) regarding DOE's petition for No Further Action (NFA) for the Solid Waste Management Units (SWMUs) and Areas of Concern (AOCs) covered by the FWP. The NFA Petition clearly indicates that the approved FWP activities have been completed for these SWMUs and AOCs. A listing of these SWMUs and AOCs can be found on the enclosed list. Until and unless the NMED makes a determination that further action is needed, modification of the FWP is inappropriate and potentially confusing.

If you need to discuss this matter further, please contact Mr. Plum at (505) 234-7462.

Sincerely,

Dr. Inés R. Triay  
Manager
