Greetings, everyone.

Effective immediately, I am the Hazardous Waste Bureau's single point-of-contact for all issues regarding WIPP. Please let your staff, contractors, stakeholders, and other interested parties know that all telephone calls, e-mails, and the like must be directed to me. Bureau project staff are no longer available to provide technical, regulatory, or other forms of guidance to you. Formal correspondence should continue to be directed to the party to whom you've been directing it all this time (e.g., me, John Kieling, Steve Zappe, etc.).

Although we anticipate that this arrangement will be temporary, it will nevertheless be in effect at least through May 31, 2003.

Thank you for your cooperation.
