Subject: Semi-Annual Discharge Monitoring Report for January 1, 2003 through
June 30, 2003

Dear Mr. Marshall:

Enclosed is the Waste Isolation Pilot Plant's Discharge Monitoring Report for January 1, through June 30, 2003. This report is required by Discharge Plan 831 (DP-831) as renewed April 29, 2003. The DP-831 requires reporting the volumes of wastewater discharged for the previous six-month period to NMED by January 31 and July 31 of each year. This report includes the volumes previously reported for the first quarter of 2003. The volume reported as discharged to the facultative lagoon system is the total amount of domestic water used by the facility from January 1, 2003 through June 30, 2003.

If you have any questions about this report or require any additional information, please contact Mr. David Emery at (505) 234-7475.

Sincerely,

Dr. Inés Triay
Manager
