Mr. Steve Zappe, WIPP Project Leader
Hazardous Waste Permits Program
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505-6303

Subject: UPDATED DISCLOSURE INFORMATION RELATED TO WASHINGTON TRU SOLUTIONS LLC (WTS)

Dear Mr. Zappe:

This letter is to provide updated information to the New Mexico Environment Department (NMED) regarding Washington TRU Solutions LLC (WTS), co-permittee under the Hazardous Waste Facility Permit, #NM4890139088-TSDF, for the U.S. Department of Energy's Waste Isolation Pilot Plant (WIPP), Carlsbad, New Mexico. Specifically, this correspondence submits updated information pursuant to provisions of the New Mexico Hazardous Waste Act, set forth at NMSA 1978, § 74-4-4.7 (E), which requires submittal of information regarding changes to the disclosure information previously provided by WTS.

It is my understanding that during a telephone conference on September 22, 2003, you specifically requested information regarding Washington Regulatory Environmental Services (WRES) and its relationship to WTS. WTS committed to forward you an updated corporate organization chart reflecting WRES' status. As discussed during the conference, WRES is an organization within Washington Group International, Inc. (Ohio). A review of our organization chart reflects that only incorporated entities and affiliates are included therein. WGI, Inc. (Ohio) is the incorporated entity and WRES is merely an organization within WGI. It is not a separately incorporated entity; thus it is not shown on the corporate organization chart. Certain employees of WRES support work at WIPP under an Affiliate Services Agreement with WTS. An excerpt from the Affiliate Services Agreement, detailing the relationship between WTS and WGI/WRES, is enclosed for your information. In addition, a copy of our latest corporate organization chart is enclosed as an update to the chart previously submitted.

Mr. Steve Zappe
