

January 12, 2004, Monday.  

To Mr. Steve Zappey, who works for  
the State of New Mexico Environment  
Department,

Concerning the class 2 WIPP  
permit modification request that  
DOE submitted to the State of  
New Mexico Environment Department  
on November 14, 2003; I do not  
support it because not enough testing  
has been done to show if this proposed  
modification request to the WIPP permit  
is safe or not.

Take care,

Mamina Dany
