Subject: WIPP agreement

i have been reading about the federal effort to increase the allowed radioactivity of waste to be stored at WIPP. This seems to be a pattern for the current administration in Washington, to back out of agreements with other governments, both foreign and domestic. i want to urge taking a very firm position against their attempt to change their prior agreement. This will not only benefit us here in New Mexico, but help set a precedent regarding the importance of living up to their word in other contexts. sincerely, David M Brugge, 4300 Bryn Mawr NE #31, Albuquerque NM 87107.
