**Cc:** Pam Allen  
**Subject:** Request for WIPP mailing list

Hi, Wren -

I received your fax this afternoon, unfortunately after Pam Allen had left for the day. I'll send you a copy of the current WIPP mailing list in Excel format tomorrow.

I guess I'm not sure what you meant when you asked to be included "on future distribution of updates to this mailing list..." I generally only provide updates when requested by the Permittees. In fact, I've reminded them several times that they should request a current list prior to each mailing they intend to send out. It's relatively easy for me to create a current list on demand. Sending out a new list to the Permittees (and to you) every time in response to adding a single new name is not something I want to have to do. I suggest you request a current list from me each time you have a new mail out, and I can probably get it to you via e-mail within a couple of hours of your request during business hours. As an alternative, you could obtain a copy of what I send to the Permittees from Bobby St. John, since he appears to be the primary contact for the mailing list on their behalf.

Let me know if I somehow misunderstood your request about updates. Look for the current list on Thursday prior to 9:30 AM.

Steve
