February 17, 2004

Dear Interested Party:

This is an update on the Workshop on Transuranic Waste sponsored by the New Mexico Environmental Evaluation Group (EEG). The workshop will focus on issues relating to the contents of those tanks located at Hanford believed to contain transuranic waste and that the Department of Energy believes meet the requirements for disposal at the Waste Isolation Pilot Plant.

The Workshop will be held on March 16, 2004 at the Glaesner Training Center in Albuquerque, New Mexico from 8:00 AM until 5:00 PM. Please access the EEG Web Site, <http://www.eeg.org> for further information regarding accommodations, directions to the Training Center, the Tentative Agenda and up-to-date information about the Workshop. As of Monday February 16, 2003 the Presenters are:

Matthew Silva, Director, EEG
Paul Detwiler, Acting Manager, CBFO, US DOE
John Kristofzski, Director, CH2M Hill Hanford Group
Suzanne Dahl, State of Washington Department of Ecology
Allen Conklin, State of Washington Department of Health
Thomas Cochran, Natural Resources Defense Council (Invited)
David Bartus, US Environmental Protection Agency, Hanford Site (Invited)
Representative from the Staff, US Nuclear Regulatory Commission (Invited)

Because there is a limit to the number of people that can be accommodated at the Training Center, all attendees (Presenters, Participants and Observers) are required to register. The registration form is available on the EEG Web Site.

If you have any questions, please do not hesitate to contact me by telephone at (505) 828-1003 or by e-mail at Anastas@eeg.org.

Sincerely,

George Anastas, Chairperson
