Date of Birth: 1/5/1953  
Monitoring Period: 1/22/2004 through 1/22/2004

Subject: Occupational Radiation Report

During your visit at WIPP you were issued a thermoluminescent dosimeter (TLD) to monitor you for exposure to ionizing radiation from sources outside of your body. All TLD results have been validated in accordance with WIPP procedure WP 12-DS3340, TLD Reading Validation and External Dose Estimates.

You were not exposed to any sources of ionizing radiation from which there was a potential of you receiving any internal exposure and you were not required to participate in a bioassay program. The results of continuous air monitors and/or fixed air samplers confirm there was no potential of you receiving any internal exposure; accordingly, your internal dose is 0.000 rem.

Dose received at WIPP in rem

	Deep Dose*	Neutron Dose**	Shallow Dose	Lens of Eye	Extremity Dose+
Dose received from 1/22/2004 through 1/22/2004	0.000	0.000	0.000	0.000	0.000

\*Deep Dose includes neutron dose

\*\*Neutron dose is not included in shallow or extremity dose

+WIPP does not utilize extremity dosimeters. Extremity dose is assumed to be the same as shallow dose.

You should preserve this report for you records. If you have any questions please contact WIPP Dosimetry at (505) 234-8904.
