Mr. Steve Zappe, Project Leader  
Hazardous Materials Bureau  
New Mexico Environment Department  
2905 E. Rodeo Park Drive, Bldg. 1  
Santa Fe, NM  87505-6110

Subject: Carlsbad Field Office Monthly Nonconformance Summarization Report and Plan and Procedure Change Report

Dear Mr. Zappe:

The purpose of this letter is to submit the Carlsbad Field Office (CBFO) Monthly NCR Summarization Report. The report lists site-generated Nonconformance Reports (NCRs) received at CBFO during the period of June 24 through July 23, 2004. It is transmitted pursuant to the requirements contained in the WIPP Hazardous Waste Facility Permit, Section B3-1, Nonconformance to Data Quality Objectives (DQOs).

Also enclosed is the CBFO Plan and Procedure Change Report. The report lists document changes that affect performance criteria or data quality that were approved by CBFO during the period of June 1 through June 30, 2004. It is transmitted pursuant to the requirements contained in the WIPP Hazardous Waste Facility Permit, Section B3-15, Changes to WAP-Related Plans or Procedures, and Section B5-2, Document Review, Approval, and Control.

If you have any questions or concerns, please contact Ms. Ava L. Holland of CBFO at (505) 234-7423.

Sincerely,

R. Paul Detwiler  
Acting Manager

MONTHLY SUMMARIZATION REPORT

FOR

SITE-GENERATED NONCONFORMANCE REPORTS

June 24, 2004 – July 23, 2004

This summary is submitted in compliance with the requirements of the WIPP Hazardous Waste Facility Permit, Section B3-1, *Nonconformance to Data Quality Objectives (DQOs)*.

During the period of June 24 through July 23, 2004, there were two reportable Nonconformance Reports (NCRs), generated by the *Lawrence Livermore National Laboratory/Central Characterization Project* (LLNL/CCP), while characterizing waste at TRU waste generator sites.

Please be advised that the numbering of reportable NCRs for this period begins with CBFO Assigned NCR Number 171 rather than Number 170; CBFO Assigned NCR Number 170 has been voided.
**List of ALL NCRs Between the following Dates:**

**Note:** This report contains only data between the target dates shown.

<td>6/24/2004</td>
<td>6/24/2004</td>
<td>During SPM review of Lawrence Livermore BDR # LL04-NDE-0017 on 6/21/04, it was discovered that the Replicate Scan and the independent Observation waste material parameter weight results did not match the original scans. The packaging weights and net weights did not equal the gross weights of the drums. <strong>Requirement Violated:</strong> CCP-TP-102, Rev. 2 Section 4.10.4 (Replicate Scan) and Section 4.11.4 (Independent Observation) &quot;IF the waste Material parameter weight estimate comparison differs by more than +50% for any waste material parameter, THEN perform the following: [A] Reconcile the results by both operators...** <strong>Actions:</strong> The Operators reviewed the radiography data tape record of the containers and reconciled the estimated waste material Parameter weights. The changes were made to the corresponding data sheets and a re-review of the BDR at the data generation level was performed. The BDR is now back for project level review. Final Disposition Approvals: Responsible Manager/Individual Abraham L. Romo, signature date 6/23/04; SPQAQ/OQAQ Steve Ewing, signature date 6/23/04. Closure: Final Disposition Complete, Responsible Manager/Individual Abraham L. Romo, signature date 6/23/04. Comment: Completed the reconciliation of WMPs' weights and resubmitted BDR. Final Disposition Verified, SPQAQ/OQAQ Dean Mooney, signature date 6/24/04. <strong>Comments:</strong> None</td>

<td>7/1/2004</td>
<td>OPEN</td>
<td>During investigative actions related to CAR-LLN0-0002-04, a review was performed on BDR LL04-NDE-0013. It was discovered that the original drum scan of LL8560672TRU identified cellulosics with an estimated weight of 1 kg but the replicate scan did not identify cellulosics. Page 3 of Attachment 6 for the replicate scan stated that the waste material parameter weight estimates agreed within +50% when in fact they did not for cellulosics. <strong>Requirement Violated:</strong> CCP-TP-102, Rev 2, Section 4.10.4 states that IF the waste material parameter weight estimate comparison differs by more than +50% for any waste material parameter, THEN perform the following, [A] Reconcile the results by both operators jointly performing a real-time review of the Attachment 6 reviewing the video record with both operators present, OR re-scan the drum with both operators present AND make any required corrections to the Attachment 6. <strong>Actions:</strong> 1. NDE operators perform re-review of original scan and replicate scan in accordance with Revision 2, section 4.10.4 and revise Data Sheets. 2. Revised Data Sheets are to reference this NCR &amp; a copy of the closed NCR to be included in the BDR. 3. VPM to hold a Briefing with appropriate NDE personnel addressing conditions as identified in this NCR and include documentation of briefing as an attachment to this NCR. Actions to Prevent Recurrence: Additional corrective actions, as applicable, will be implemented in accordance with corrective actions identified in CAR-LLN0-002-04. <strong>Comments:</strong> None</td>

PLAN AND PROCEDURE CHANGE REPORT

June 1, 2004 – June 30, 2004

This report is submitted in compliance with the requirements of the WIPP Hazardous Waste Facility Permit, Section B3-15, *Changes to WAP-Related Plans or Procedures*, and Section B5-2, *Document Review, Approval, and Control*.

During the period of June 1 through June 30, 2004, there were two reportable document changes that affected performance criteria or data quality. These document changes were submitted for CBFO review and approval by the *Central Characterization Project (CCP)*, and were approved by CBFO during June 2004.
