Subject: RE: Request for Extension on Accelerated Corrective Action Report 05-003

All -

Following review of your transmittal dated November 24, 2004 in response to the e-mail below, NMED further requests two video tapes selected from Attachment 2 and their associated batch data reports:

Tape Number 261
Tape Number 279

To clarify, NMED requires copies of the video tapes that reflect the original recording (i.e., without dubbing or other efforts to restore the audio track). Likewise, the batch data reports should reflect full review and approval through project level validation and verification prior to shipment of waste.

If you have completed the audio restoration activities for one or both tapes, please include copies of them as well.

As before, call with questions.

Steve

Subject: RE: Request for Extension on Accelerated Corrective Action Report 05-003
Importance: High

All -

I am concerned with this extension of completion deadline for CAR 05-003. Please provide me with all correspondence between NTS/CCP and the Permittees or CTAC on this CAR, including the extent of the "initial investigation" and outcome of any further investigations, identification of all video tapes with known audio problems, identification of all containers on these tapes, and the manner in which NTS/CCP proposes to "restore audio" on these tapes. I will appreciate your prompt attention to this request. Call me with questions.
