ENTERED

RECEIPT

I, STEVE ZAPPE, received 122 individually signed postcards opposing the Department of Energy's proposed Class 3 permit modification to eliminate detailed examination/characterization of each waste container before it may be shipped to the Waste Isolation Pilot Plant (WIPP), bring remote handled waste to WIPP, more than double the amount of waste that can be stored aboveground at WIPP and gut the New Mexico Environment Department's authority to issue fines or penalties for violations of the WIPP operating permit. These proposals may put at risk the health and safety of community members surrounding WIPP and along the WIPP transportation routes.

Dated: June 9, 2005

Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505-6303
