Dear Mr. Steve Zappe,

Over 20 years ago my most memorable "bad day", was when I watched 25 truck loads of nuclear waste cross from Belize into Guatemala & not 1 guard understood what was in those trucks. The only reason I am against nuclear power is that somehow, somewhere, someone will try & take a short cut & not dispose of the waste properly. Also because I would not want to have to handle the waste I wouldn't want anyone else to have to either. (over)
