Subject: Comments on the Draft Discharge Permit 831 for the Waste Isolation Pilot Plant

The purpose of this letter is to provide you with comments on the Waste Isolation Pilot Plant draft renewal Discharge Permit 831 (DP-831). Upon review of this draft permit there are two typographical errors to note. They are on page 7 in the last sentence in section 10. The word "impoundmens" should be "impoundments" and Condition "13" should be noted as Condition "14".

Thank you for providing the U. S. Department of Energy (DOE) the opportunity to review this draft permit. If you have any additional comments for the DOE regarding this permit, please call me at 575-234-7462.

Sincerely,

 David C. Moody
 Manager
