Subject: WIPP Firewater Line Inspeiton

Jody -

Please coordinate WIPP's inspection of the firewater line next Monday, September 22, with Tom Kesterson of NMED's DOE Oversight Bureau. I've spoken with him and he is available to observe this inspection on NMED's behalf.

It would be extremely helpful to have a letter from the Permittees in the correspondence record (prior to the inspection) stating the scope and expectations for this inspection, similar to what you did for the alternate firewater line inspection a couple of months ago. That way, we'll understand what we're supposed to be looking for and what observations are necessary for NMED to issue a letter stating that the modifications are in compliance with the conditions of the Permit, as specified in Permit Condition I.E.11.b.(ii).

Thanks!
Steve
