 Santa Fe, NM 87505-6303

Subject: Review of Update for the WIPP Operating Record (Change Notice #1)
 Heterogeneous Debris from Mound Site (SR-MD-PAD1)

Dear Mr. Bearzi:

The Department of Energy, Carlsbad Field Office (CBFO) has approved the Change Notice #1, Heterogeneous Debris from Mound Site (SR-MD-PAD1) by the Central Characterization Project at the Savannah River Site.

Enclosed is a copy of the form as required by Section B-5a of the WIPP Hazardous Waste Facility Permit, No. NM4890139088-TSDF.

If you have questions on this matter, please contact me at (575) 234-7300.

Sincerely,

David C. Moody
 Manager

**Update for WIPP Operating Record (Change Notice #1)
Heterogeneous Debris from Mound Site (SR-MD-PAD1)**

Please add the following information to the WIPP Operating Record for Waste Stream Profile Form (WSPF) SR-MD-PAD1. This waste stream is Heterogeneous Debris from Mound Site and was approved by DOE/CBFO on July 19, 2010.

This WSPF is being revised. The WSPF components are bolded. The updates are:

1. WSPF, Title, version number, and date of documents used for WAP Certification

Update the following procedures:

CCP-PO-001, CCP Transuranic Waste Characterization Quality Assurance Project Plan, Revision 18, June 30, 2010

CCP-PO-002, CCP Transuranic Waste Certification Plan, Revision 24, June 30, 2010

2. WSPF, Waste Stream Information, Applicable TRUCON Content Codes

Update the list of applicable TRUCON Content Codes to include SQ 125 and SQ 225.

The revised section will identify the following TRUCON Content Codes: SR 125, SR 225, SQ 125, SQ 225, and SQ 154.

3. WSPF, Required Program Information, Required Waste Stream Information, and Supplemental Documentation

Update reference CCP-AK-SRS-9, Rev. 1, October 8, 2009 to CCP-AK-SRS-9, Rev. 2, September 13, 2010.

4. Summation of Aspects of AK Summary Report: SR-MD-PAD1, Overview, Last Paragraph

Update reference CCP-AK-SRS-9, Rev. 1, October 8, 2009 to CCP-AK-SRS-9, Rev. 2, September 13, 2010.

5. Summation of Aspects of AK Summary Report: SR-MD-PAD1, Waste Stream Identification Summary, TRUPACT-II Content Code (TRUCON)

Update the list of applicable TRUCON Content Codes to include SQ 125 and SQ 225.

The revised section will identify the following TRUCON Content Codes: SR 125, SR 225, SQ 125, SQ 225, and SQ 154.

6. Summation of Aspects of AK Summary Report: SR-MD-PAD1, F-Listed Waste, (F005)

Add benzene to the (F005) listing of constituents.

7. Justification for the Selection of Radiography or VE

Correct S500 to S5000.

Reason/Justification for the Change

Documents used for WAP certification have been revised to reflect the most recent revisions.

The approved TRUCON Content Codes SQ 125 and SQ 225 are added to this waste stream to support the repackaging of boxes of waste into SWBs.

Reference to CCP-AK-SRS-9, Rev. 1, October 8, 2009 is being updated to reflect the most current version, CCP-AK-SRS-9, Rev. 2, September 13, 2010.

Benzene was included as a constituent on *Table 1 –Toxicity Characteristic and F-Listed Constituents in Waste Stream SR-MD-PAD1* in the Summation of Aspects of the AK Summary Report, but was inadvertently left off the concluding F005 list in the F-Listed Waste section.

Correct a typographical error

Update for the WIPP Operating Record (SR-MD-PAD1) certification:

I hereby certify that I have reviewed this Update for WIPP Operating Record, and it is complete and accurate to the best of my knowledge. I understand that this information will be made available to regulatory agencies and that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.
