

U.S. Department of Energy Waste Isolation Pilot Plant

Notice of Information Repository

Background

The U.S. Department of Energy's Waste Isolation Pilot Plant (WIPP) received its Hazardous Waste Facility Permit (Permit) renewal from the New Mexico Environment Department on November 30, 2010. The Permit effective date is December 30, 2010.

Information Repository

Beginning December 30, 2010, the new permit requires the Permittees to establish and maintain an electronic Information Repository on the WIPP Homepage. The Information Repository will be located at: http://www.wipp.energy.gov/library/information_repository. The Information Repository will include the following information:

- The Part A and Part B permit applications associated with the Permit
- A complete copy of the Permit, including any modifications
- Permit modification notifications and requests associated with the Permit
- The Annual Waste Minimization Report
- Any requests for time extensions associated with Permit Section 1.10.3
- Corrective action documents associated with Permit Part 8
- Reports required by Permit Sections 1.7.11 and 1.7.13 that must be submitted in writing
- Notices of deficiency or disapproval, associated responses, final approval letters and directives from the Secretary associated with specific documents
- Notices of violation, administrative compliance orders, responses to these documents required by the Secretary and any directives from the Secretary associated with the Permit
- Biennial Report submitted to NMED pursuant to Section 2.14.2

The Information Repository will contain an index of the documents included in the repository.

Questions regarding the Information Repository should be directed to Mr. Bobby St. John
