Santa Fe, New Mexico 87505-6303

Subject: New Mexico Environment Department Inspection of the Waste Isolation Pilot Plant Conduit Wall Penetrations

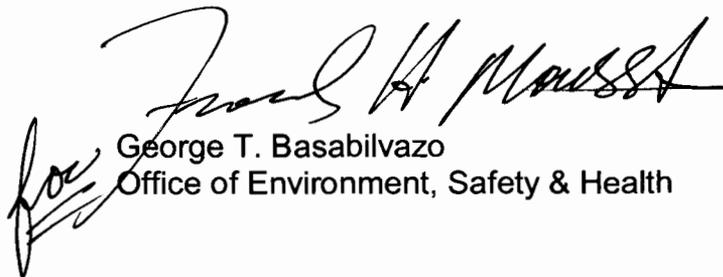

Reference: United States Department of Energy Letter CBFO:OESH:GTB:MAG:11-0702:UFC 5487.00 from Edward Ziemianski and M. F. Sharif to James Bearzi, dated January 10, 2011, subject: Notification of Planned Change to the Permitted Facility to Support TRUPACT-III

Dear Mr. Zappe:

The purpose of this letter is to transmit to you a revised "Table Listing of TRUPACT-III required penetrations." This revised table was requested by you during your inspection of the Waste Isolation Pilot Plant on January 18, 2011. The subject table that was originally transmitted to you, as noted in the referenced letter, has been modified to describe the number and size of the penetrations that have been installed.

If you have any questions or comments, please contact me at (575) 234-7488.

Sincerely,

George T. Basabilvazo
Office of Environment, Safety & Health

Enclosure

Table Listing of TRUPACT-III required penetrations

Number of Holes	Conduit Size (Inches)	Affected Area	Approximate Location
1	3/4	Airlock 100	West wall near the exterior roll-up door
