Subject: RE: Transmittal of the Semiannual Volatile Organic Compound, Hydrogen, and Methane Data Summary Report

Susan –

Thanks for your phone call this morning. I look forward to receiving the spreadsheet with the TIC values that were missing from the printed report.

While you're at it, NMED requests spreadsheets of VOC data for repository and disposal room monitoring for the following time frames. If it's easier to simply provide data for all dates rather than the time frames requested, that is acceptable.

Repository results – data after 7/7/06

Disposal room:

Panel 3 – all

Panel 4 – data after 8/13/09

Panel 5 – all

E-mailing these data are acceptable as well, unless the Permittees prefer to officially transmit them to us. Thanks!

Steve

ps – below is the format of the existing repository monitoring spreadsheet that we have. If the data after 7/7/06 you'll be providing is not in a compatible format, please submit all available repository data in your current format.
