Mr. John Kieling, Acting Chief  
Hazardous Waste Bureau  
New Mexico Environment Department  
2905 Rodeo Park Drive East, Building 1  
Santa Fe, NM 87505-6303

Subject: Notification Required By Permit Attachment O

Dear Mr. Kieling:

The purpose of this letter is to notify you that 35,000 standard cubic feet of air per minute was not achieved in Room 7 of Panel 6 when workers were present on July 30, 2011. This notification is in accordance with the Permit, Attachment O, Section O-3b (2), *Calculation of the Running Annual Average of Total Mine Airflow*.

Waste disposal was not taking place in this area and access to the area was restricted by the use of barriers in accordance with Permit Attachment O, Section O-1. Personnel entered the room to perform inspections prior to resuming normal ventilation.

We certify under penalty of law that this document and all attachments were prepared under our direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on our inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of our knowledge and belief, true, accurate, and complete. We are aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Please contact George T. Basabilvazo at (575) 234-7488 if you have any questions regarding this notification.

Sincerely,

Edward Ziemianski, Acting Manager  
Carlsbad Field Office

M. F. Sharif, General Manager  
Washington TRU Solutions LLC
