Argonne Heterogeneous Debris Waste

(ID-AECHDM)

Please add the following information to the WIPP operating record for Waste Stream Profile Form (WSPF) ID-AECHDM. This waste stream is Argonne Heterogeneous Debris Waste and was approved by DOE/CBFO on December 9, 2011.

This WSPF is being revised. The WSPF components are bolded. The updates are:

**1. WSPF, Applicable TRUCON Content Numbers:**

Update the TRUCON Content Numbers to include ID 127/227.

**2. Summation of Aspects of AK Summary Report: ID-AECHDM, Waste Stream Identification Summary, TRUPACT-II Content Code (TRUCON):**

Update the TRUCON Content Numbers to include ID 127/227.

**Reason/justification for the change**

The new TRUCON Content Number was added for repackaging purposes.

The changes submitted in this change notice do not affect the waste stream designation, assignment of EPA hazardous waste numbers, or the waste matrix code as identified in the previously approved waste stream profile form.

Update for the WIPP Operating Record (ID-AECHDM) certification:

I hereby certify that I have reviewed this Update for WIPP Operating Record, and it is complete and accurate to the best of my knowledge. I understand that this information will be made available to regulatory agencies and that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.
