Trais,
As we discussed at the end of yesterday, make the changes as Charlie suggests. I will sign the letter.

Thanks, John

Charlie is suggesting that we write a cover letter stating we made some non-substantive changes to typographic errors and attach the corrected pages and a new CD. Then, post the letter on the web and update the files on the web but keep the issue dates associate with the files. I can do all that tomorrow.

Subject: "errors" in yesterday's permit mod

I've noticed some "errors" or "typos" in looking at the January 31, 2012 revisions on the WIPP download page.

I believe that they can and should be corrected by NMED.

So far what I've found are:

1. Part 1 - odd numbered pages at bottom were not changed from "of 19" to "of 20."

2. Part 4 - Page 4-7 deleted a space " " after "room" in the fifth line of 4.5.3.2.

3. Part 4 - Page 4-12 - seventh line of 4.6.4.3 should be 4.6.4.2 (Mine ventilation), not 4.6.2.2 [On page 0-7, line 17, the report is under 4.6.4.2.]

4. Part A2 - What's posted on the download page is still the April 15, 2011 version, not the January 31, 2012 revision.

5. Part 02 - Page 0-6 - "Disposal" should be deleted on line 4.

I'd appreciate knowing how you're addressing these and any other similar matters with yesterday's revisions.

Thanks.
