Subject: RE: Map Package

Good morning Rick.

As we discussed last Thursday we have not yet received the revised 2005-2008 Culebra Map Package for our review and approval.

Dan Ferguson asked some time ago if it would be ok to send a draft of the revision for our review before sending the revision officially and I told him that this would be fine.

We have not yet received a draft or official revision thus far. You may want to check with Dan to see where along the process the revised map package is at.

I reviewed the Final Order again this morning.

- 10. e of the Order states: "Within 270 days from the Department's approval of the Culebra ... Map package of Paragraph 10.c, Respondents shall submit Culebra... Map package consistent with the work plan for each year from 2000 -2004."
- Paragraph 10.c disuses the review and approval of the map package for 2009.
- The 2009 Culebra Map package was approved on November 2, 2011.
- 270 days from November 2, 2011 is Sunday July 29, 2012.
- Therefore, the 2000-2004 Culebra Map package is due no later than Monday, July 30, 2012. (the next business day)

I have attached a copy of the Final order for your convenience.

Please feel free to contact me if you have any questions on this!

Subject: Map Package

Hey Ricardo how are things? I was just wondering how the approval is going with the 2005-2008 Map Package? It is my interpretation that the final package is due to NMED around August 2, 2012. Is this correct?
