Trais,
I reviewed 23 documents (not in entirety), but just enough that I am satisfied with the assignments of RCRA waste codes for the three streams.

Trais,
I will be leaving our office building at 1:30pm in order to meet the security guard at the LANL Library to view documents of the following waste streams:

1. LA-MIN03-NC.001 (TA 50 rad liquid wastes that was solidified).
2. LA-CIN01.001 (TA 55 cemented waste sludge from weapons manufacturing).
3. LA-MHD03.001 (CMR weapons debris waste).

I will be reading processes that created the waste and will look specifically for chemicals utilized in these processes to see if they match the RCRA assignments made by CCP.
Hopefully, I should be back at the office at 5:00pm.

Steve,

Please send me an email describing the purpose of your visit and a brief outline of your schedule once it is finalized.
Thanks.
