Subject: IPRA 9-14-2012 SRS Waste Stream

Mr. Hancock,

The New Mexico Environment Department (NMED) received a request on September 14, 2012 under the Inspection of Public Records Act regarding a specific Savannah River Site Waste Stream.

The NMED Hazardous Waste Bureau has several documents related to your request. The information can be found on the New Mexico Environment Department's ftp site at: ftp://ftp.nmenv.state.nm.us/hwbdocs/HWB/WIPP/WIPP_IPRA_SRS_9-14-2012/

These documents will remain on the ftp site for approximately 10 business days.

These documents are also available for review at the NMED's Hazardous Waste Bureau offices located in Santa Fe by making arrangements with Pam Allen of my staff by phone at 505-476-6064, or by e-mail at pam.allen@state.nm.us.

Subject: IPRA Request Related to WIPP

Attached is an IPRA request.

Please note that for the past 15 years, I have been able to request WIPP documents directly from Hazardous Waste Bureau (HWB) staff, which has saved dozens of hours of time and effort as compared with IPRA for both NMED and this organization.

I intend to pursue with Secretary Martin a clarification and change in the policy. But since requested documents are not being provided as per the practice of the past 15 years, I am filing this request.

If there is not a change in this new practice, you will regularly be receiving IPRA requests from me.

Thank you for your attention.

Don Hancock
