Subject: Inspection of Public Records Act request February 4, 2013 - WIPP Class 3 PMR

Mr. Hancock,

The New Mexico Environment Department (NMED) received a request on February 4, 2013 under the Inspection of Public Records Act regarding documents relating to the WIPP Class 3 permit modification request for panel closure, repository reconfiguration of panels 9 and 10, and revision of the VOC Target Analyte List and VOC Monitoring Program.

The NMED Hazardous Waste Bureau has several documents related to your request. The information can be found on the New Mexico Environment Department's ftp site at: ftp://ftp.nmenv.state.nm.us/hwbdocs/HWB/WIPP/WIPP_IPRA_2-4-2013/

These documents will remain on the ftp site for approximately 10 business days.

These documents are also available for review at the NMED's Hazardous Waste Bureau offices located in Santa Fe by making arrangements with Pam Allen of my staff by phone at 505-476-6064, or by e-mail at pam.allen@state.nm.us.

Thank you,
John Kieling
