ENTERED

JUN 11 2013

Mr. John E. Kieling, Chief
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, New Mexico 87505-6303

Subject: Notification of Public Notices to the Waste Isolation Pilot Plant Mailing List
Permit Number NM4890139088-TSDF

Dear Mr. Kieling:

The purpose of this letter is to provide the New Mexico Environment Department with the information identified in 20.4.1.900 New Mexico Administrative Code (NMAC) incorporating 40 CFR 270.42(b)(2) regarding two permit modification requests:

1. A Class 3 permit modification request entitled: *Class 3 Permit Modification Request: Item 1: Modification to the WIPP Panel Closure System; Item 2: Repository Reconfiguration of Panels 9 and 10; Item 3: Revise Volatile Organic Compound (VOC) Target Analyte List and Other Changes to the VOC Monitoring Program*
2. A Class 2 permit modification request entitled: *Modify Excluded Waste Prohibition*

The information the Permittees mailed and published is included in Enclosures 1 and 2 and is summarized below:

Enclosure 1

- Public Notice for a Class 3 PMR entitled: *Class 3 Permit Modification Request: Item 1: Modification to the WIPP Panel Closure System; Item 2: Repository Reconfiguration of Panels 9 and 10; Item 3: Revise Volatile Organic Compound (VOC) Target Analyte List and Other Changes to the VOC Monitoring Program*
- Publication of the public notices for the Class 3 PMR including
 - Copy of the Public Notices from the Albuquerque Journal
 - Copy of the Public Notices from the Carlsbad Current-Argus
 - Copy of the Public Notices from the Santa Fe New Mexican
- Evidence of the mailings to the WIPP Facility Mailing List
 - Copy of the receipt from Mail Service Center for both public notices indicating a mail out to the WIPP Facility Mailing List for the Class 3 and Class 2 PMRs.

JUN 11 2013

Enclosure 2

- Public Notice for a Class 2 PMR entitled: *Modify Excluded Waste Prohibition*
- Publication of the public notices for the Class 2 PMR including
 - Copy of the Public Notices from the Albuquerque Journal
 - Copy of the Public Notices from the Carlsbad Current-Argus
 - Copy of the Public Notices from the Santa Fe New Mexican

We certify under penalty of law that this document and all attachments were prepared under our direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on our inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of our knowledge and belief, true, accurate, and complete. We are aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

If you have questions regarding this submittal, please contact George T. Basabilvazo at (575) 234-7488.

Sincerely

Jose R. Franco, Manager

Class 3 Permit Modification

Public Notices and Fact Sheets

5 pages

PUBLIC INFORMATION MEETINGS

On Requested Modifications to the Hazardous Waste Facility Permit for the Waste Isolation Pilot Plant

WHO: U.S. Department of Energy (DOE) Carlsbad Field Office and Nuclear Waste Partnership LLC (NWP)

WHAT: DOE and NWP will conduct public meetings to provide information on the following permit modification requests to the WIPP Hazardous Waste Facility Permit.

WHEN: Tuesday, April 16, 2013 3 – 5 p.m. Thursday, April 18, 2013 5 – 6 p.m.

WHERE: Courtyard by Marriott 3347 Cerrillos Road Santa Fe, New Mexico Skeen-Whitlock Building 4021 National Parks Highway Carlsbad, New Mexico

WHY: On March 18, 2013, DOE submitted a Class 3 permit modification request package to the New Mexico Environment Department (NMED). This package consists of three major modifications. The permit modification requests are as follows and propose to:

- 1. Modify the WIPP Panel Closure System Design**
This request includes the following items:
 - Revise the panel closure system design and design requirements
 - Delete the Hydrogen and Methane Monitoring Plan
- 2. Repository Reconfiguration of Panels 9 and 10**
This request includes the following items:
 - Revise the location of Panels 9 and 10 in the WIPP repository and redesignate them as panels 9A and 10A
 - Authorize the construction and use of the replacement panels
- 3. Revise the Volatile Organic Compound (VOC) Target Analyte List and Other Changes to the VOC Monitoring Program**
This request includes the following items:
 - Update the VOC target analytes for VOC monitoring programs
 - Revise how compliance with environmental performance standards are calculated and establish alternative remedial actions
 - Establish new room-based action levels
 - Eliminate sampling and reporting requirements for rooms that are not adjacent to a filled room
 - Update the VOC Monitoring Program

HOW: To obtain additional information about these permit modification requests, contact Mr. Bobby St. John, NWP, at 1-800-336-9477. The permit modification requests are also available on the WIPP web site at <http://www.wipp.energy.gov> and at the WIPP Information Center, Skeen-Whitlock Building, 4021 National Parks Highway, Carlsbad, N.M. A copy of the requested permit modifications can also be obtained from NMED at the address listed below.

COMMENTS: Written comments for the record must be sent to the NMED contact person at the address below and received no later than 5 p.m. on May 20, 2013:

Ms. Trais Kliphuis
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, N.M. 87505
Phone: 505-476-6051
Fax: 505-476-6060
E-mail: trais.kliphuis@state.nm.us

The Permittees' compliance history during the life of the permit being modified is available from Ms. Kliphuis at NMED.

QUESTIONS: Any questions or comments to the Permittees regarding these requested permit modifications can be sent to Mr. Bobby St. John, P.O. Box 2078, Carlsbad, N.M. 88221, no later than May 13, 2013.

WIPP Permit Community Relations Plan

shown in the first frame looking askance at a slob who is drinking a giant soft drink of the kind the mayor of New York City has tried to ban, only to be slapped down by the courts.

In the second frame, Uncle Sam looks at the health bill associated with the slob's irresponsible behavior. The implication is clear. Like a good parent, if Uncle Sam is to pay our bills, he will have

As America moves ever deeper into the slough of government welfare, we would do well to remember the warning spoken by William Pitt in the House of Commons in 1783: "Necessity is the plea for every infringement of human freedom. It is the argument of tyrants; it is the creed of slaves."

DONALD R. BAUCOM
El Prado

Well done Mayor Richard Berry, Albuquerque City Councilor Mike Cook and a nonpartisan majority of the City Council.

Over a year ago Cook and Council President Trudy Jones led the effort to modify the Uptown Sector Plan, which paved the way for the construction of the Target store, leading to the creation of these jobs.

Joining together, the administration and seven city coun-

PUBLIC INFORMATION MEETINGS

On Requested Modification to the Hazardous Waste Facility Permit for the Waste Isolation Pilot Plant

WHO: U.S. Department of Energy (DOE) Carlsbad Field Office and Nuclear Waste Partnership LLC (NWP)

WHAT: DOE and NWP will conduct public meetings to provide information on the following permit modification request to the WIPP Hazardous Waste Facility Permit (Permit).

WHEN:	Tuesday, May 14, 2013 3 – 5 p.m.	Thursday, May 16, 2013 5 – 6 p.m.
WHERE:	Courtyard by Marriott 3347 Cerrillos Road Santa Fe, New Mexico	Skeen-Whitlock Building 4021 National Parks Highway Carlsbad, New Mexico

WHY: On April 8, 2013, DOE submitted a Class 2 permit modification request to the New Mexico Environment Department (NMED). The permit modification requests the following change and proposes to:

Revise the WIPP permit to modify the prohibition with respect to "excluded waste." Excluded waste is transuranic (TRU) waste that has been managed as high-level waste and waste from specific tanks identified in the Permit. In some instances, TRU waste tanks were located in the same tank farm that stored high-level waste and were managed with the same radioactive waste management practices. The radioactive characteristics, including the radioactive classification, of the wastes are not regulated by the Resource Conservation and Recovery Act (RCRA) hazardous waste regulations that govern the Permit. The prohibition for disposal of high-level waste at the WIPP Facility is stipulated in the WIPP Land Withdrawal Act. Therefore, the excluded waste prohibition in the Permit is inappropriate and unnecessary because it is outside of the RCRA hazardous waste regulations. The Permit already requires the Permittees to verify that all waste disposed of at the WIPP facility meets the WIPP Waste Acceptance Criteria prior to being shipped to the WIPP facility.

HOW: To obtain additional information about this permit modification request, contact Mr. Bobby St. John, NWP, at 1-800-336-9477. The permit modification request is also available on the WIPP web site at <http://www.wipp.energy.gov> and at the WIPP Information Center, Skeen-Whitlock Building, 4021 National Parks Highway, Carlsbad, N.M. A copy of the requested permit modification request may also be obtained from NMED at the address listed below.

COMMENTS: Written comments for the record must be sent to the NMED contact person at the address below and received no later than 5 p.m. on June 10, 2013:

On April 8, 2013, DOE submitted a Class 2 permit modification request to the New Mexico Environment Department (NMED). The permit modification requests the following change and proposes to: Revise the WIPP permit to modify the prohibition with respect to "excluded waste." Excluded waste is transuranic (TRU) waste that has been managed as high-level waste and waste from specific tanks identified in the Permit. In some instances, TRU waste tanks were located in the same tank farm that stored high-level waste and were managed with the same radioactive waste management practices. The radioactive characteristics, including the radioactive classification, of the wastes are not regulated by the Resource Conservation and Recovery Act (RCRA) hazardous waste regulations that govern the Permit. The prohibition for disposal of high-level waste at the WIPP facility is stipulated in the WIPP Land Withdrawal Act. Therefore, the excluded waste prohibition in the Permit is inappropriate and unnecessary because it is outside of the RCRA hazardous waste regulations. The Permit already requires the Permittees to verify that all waste disposed of at the WIPP facility meets the WIPP Waste Acceptance Criteria prior to being shipped to the WIPP facility.

To obtain additional information about this permit modification request, contact Mr. Bobby St. John, NWP, at 1-800-336-9477. The permit modification request is also available on the WIPP web site at <http://www.wipp.energy.gov> and at the WIPP Information Center, Skeen-Whitlock Building, 4021 National Parks Highway, Carlsbad, N.M. A copy of the permit modification request may also be obtained from NMED at the address listed below.

Written comments for the record must be sent to the NMED contact person at the address below and received no later than 5 p.m. on June 10, 2013:

PUBLIC INFORMATION MEETINGS

On Requested Modifications to the Hazardous Waste Facility Permit for the Waste Isolation Pilot Plant

WHO: U.S. Department of Energy (DOE) Carlsbad Field Office and Nuclear Waste Partnership LLC (NWP)
WHAT: DOE and NWP will conduct public meetings to provide information on the following permit modification request to the WPPP Hazardous Waste Facility Permit (Permit).
WHEN: Tuesday, May 14, 2013 3-5 p.m. Thursday, May 16, 2013 5-8 p.m.
WHERE: Courtyard by Marriott 3347 Corralia Road Santa Fe, New Mexico Skeen-Whitlock Building 4021 National Parks Highway Carlsbad, New Mexico

WHY: On April 8, 2013, DOE submitted a Class 2 permit modification request to the New Mexico Environment Department (NMED). The permit modification requests the following change and proposes to:

Revise the WPPP permit to modify the prohibition with respect to "excluded waste." Excluded waste is transuranic (TRU) waste that has been managed as high-level waste and waste from specific tanks identified in the Permit. In some instances, TRU waste tanks were located in the same tank farm that stored high level waste and were managed with the same radioactive waste management practices. The radioactive characteristics, including the radioactive classification, of the wastes are not regulated by the Resource Conservation and Recovery Act (RCRA) hazardous waste regulations that govern the Permit. The prohibition for disposal of high-level waste at the WPPP facility is stipulated in the WPPP Land Withdrawal Act. Therefore, the excluded waste prohibition in the Permit is inappropriate and unnecessary because it is outside of the RCRA hazardous waste regulations. The Permit already requires the Permittees to verify that all waste disposed of at the WPPP facility meets the WPPP Waste Acceptance Criteria prior to being shipped to the WPPP facility.

HOW: To obtain additional information about this permit modification request, contact Mr. Bobby St. John, NWP, at 1-800-336-9477. The permit modification request is also available on the WPPP web site at <http://www.wppp.energy.gov> and at the WPPP information Center, Skeen-Whitlock Building, 4021 National Parks Highway, Carlsbad, N.M. A copy of the permit modification request may also be obtained from NMED at the address listed below.

COMMENTS: Written comments for the record must be sent to the NMED contact person at the address below and received no later than 5 p.m. on June 10, 2013:

Ms. Trish Kliphuis
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, N.M. 87505
Phone: 505-476-6051
Fax: 505-476-8080
E-mail: trish.kliphuis@state.nm.us

The Permittees' compliance history during the life of the permit being modified is available from Ms. Kliphuis at the New Mexico Environment Department.

QUESTIONS: Any questions or comments to the Permittees regarding this permit modification may be sent to Mr. Bobby St. John, P.O. Box 2078, Carlsbad, N.M. 88221, no later than May 28, 2013.
