Subject: Notification of Projected Start Date of Excavation for Panel 8

Dear Mr. Kieling:

The purpose of this letter is to notify you of the projected start date of excavation for underground Hazardous Waste Disposal Unit (HWDU), Panel 8. This notification is being provided in accordance with the Waste Isolation Pilot Plant Hazardous Waste Facility Permit (Permit) Part 4, Section 4.5.2.2. which states:

*Notification Requirements - At least 30 calendar days prior to the projected start date of excavation of each Underground HWDU, the Permittees shall provide written notification to the Secretary stating the projected start date of excavation, along with supporting rationale (e.g., projected waste receipt rate, etc.). The Permittees shall post a link to the notification transmittal letter on the WIPP Home Page and inform those on the e-mail notification list as specified in Permit Section 1.11.*

Mine Operations plans to begin mining of Panel 8 on or about July 18, 2013. Mining will take approximately 26 months followed by outfitting and certification (6 months). Based on this anticipated schedule, Panel 8 preparation will require about 32 months and will be completed in March 2016, prior to the first waste emplacement in the panel. The need to begin mining of Panel 8 at this time is based on current contact-handled and remote-handled receipt rates.

We certify under penalty of law that this document and all attachments were prepared under our direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted.
