Subject: Sodium Distillation Process

Ricardo: Here is the latest on the sodium distillation process at INL:

Efforts are underway to disassemble and clean the sodium distillation components for transfer to INTEC. Preparations to install the system at CPP-666 continue. The final test report has been issued for internal review and it is expected to be finalized and issued on October 17, 2013. If you need additional information, please contact Marcus Pinzel.

Thanks, Norma Castaneda
