Subject: FW: IPRA Request

Mr. Hancock,

The New Mexico Environment Department (NMED) received a request on October 24, 2013 under the Inspection of Public Records Act regarding documents relating the most recent audit and assessment schedules and the most recent Weekly Map Updates regarding underground mining at WIPP in panels 6, 7, 8, and the SDI project. The NMED Hazardous Waste Bureau has several documents related to your request. The information can be found on the New Mexico Environment Department's ftp site at:

ftp://ftp.nmenv.state.nm.us/hwbdocs/HWB/WIPP/IPRA_10-24-2013/

These documents will remain on the ftp site for approximately 10 business days.

These documents are also available for review at the NMED's Hazardous Waste Bureau offices located in Santa Fe by making arrangements with Pam Allen of my staff by phone at 505-476-6064, or by e-mail at pam.allen@state.nm.us.

Thank you,
John Kieling
