Ricardo,

Thanks for the status. When you all get feedback please let me know.

Just so you all know, I tried to call John last Tuesday but got his answering message so I left John a courtesy voice message on Tuesday last week (11/26/13) that we were going to contact stakeholders and try to set up a pre-submittal meeting on the Draft WAP class 2 PMR, for mid December. I left John the message just in case he received calls from the northern stakeholders. I do not know if he received the message or not; I was just trying to give him a heads up.

I think we have tentatively scheduled a pre-submittal meeting with Don et al on the Draft WAP class 2 PMR , for around 9:30 am in Albuquerque on 12/18/13, and we are trying to set up a pre-submittal meeting with the Carlsbad stakeholders later that week in Carlsbad (likely on 12/20/13). Once those meetings are firmed up (or changed) I will have Anthony contact you all.

Best regards,

George T. Basabilvazo

Thank you for the Federal Register George.

My apologies for not being able to get back to you on the draft Class 1 and 2 PMRs. We were scheduled to meet with John last Monday, 11/25, to discuss and give you our feedback but our meeting was moved to Tuesday, 11/26, because of a 2hr snow delay. Tuesday's scheduled meeting was subsequently canceled because of John's schedule. John has not been able to meet with our group as of yet and is in Albuquerque today.

Please let me know if you have any question or concerns.
Trais is scheduled to be back in the office tomorrow.

Thanks again.

Ricardo

<<78 FR 72612 December 3 2013 (2)>>

I hope your Thanksgiving was wonderful.

Attached is the EPA Federal Register Notice, on their proposed rule to approve the Planned Change Request for the Panel Closure Redesign. We submitted the Planned Change Request to EPA back in September 2011 (about 27 months ago).

Best regards,

George
