Subject: RE: WIPP Information - For Call Today

Attached is the Station A gross alpha/beta activity I spoke of today. The spike was associated with the following run day/time 3/13/14 @ 8:30 - 3/13/14 @ 16:10.

Thanks,
Russell

Subject: WIPP Information - For Call Today

Attached are the tables for the station A and B data, environmental data, bioassay data and graphs showing the performance of the filtration system.

Below is a summary of the discussion points for today: (Please note, activities and dates are subject to change. Please verify the most current dates of any information provided).

- The air sample results table was updated to show results below MDC. The Soil sample collection table is also updated with transverse locations.
- A vacuum break is being installed in the exhaust duct (between the two dampers); delayed - work is resuming today and will continue through the weekend.
- Station A and B Sampling: Work is continuing on installing the CAM at Station B today. Will take a few days to install but will not be put on-line for a week or two (allowing for some operational run-time).
- SS and AIS Shaft/Rope Inspections: All preventive maintenance has been completed on the hoist support systems. Entry has been delayed while safety controls are being implemented. Now expected for Sunday.
- Initial Manned Re-entry of U/G: After SS and AIS inspections above are completed, personnel will enter the mine and survey the area between the SS and AIS. This entry is expected to occur on Monday.
- Dry run at a potash mine was completed.
- After the area between the shafts is surveyed, a team will enter the mine, perform initial characterization and attempt to identify the contamination source and location. Entry is expected next week.
- The in-service aerosol test on the HEPA filters is tentatively scheduled for Sunday and will extend into Monday.
- The unloading of the first TRUPACT 3 may occur this afternoon, pending decision of safety documentation implementation impact.
- The press release for the WCS contract was issued.

After the update call, a discussion will be held regarding the NMED questions.

As a reminder, the call-in number is (866) 723-6758, code 8040901#

Thanks

Oba
