Awesome. An extra set of hands is always useful when sampling.

Soil and vegetation sampling along the plume sampling (29 surface soil and 29 vegetation samples) is scheduled next Wednesday to Friday. Based on the water/sediment sampling these will be long days – probably starting at WIPP about 7:30am and finishing in the field around 5:00pm.

Ricardo, what size glove do you wear? Or how big are your hands? For sampling, we have large and medium gloves (nitrile and latex) down here? We don't have field gloves, so if you have a heavy pair of work gloves, bring those. You'll need field clothes; I recommend long pants and long-sleeved shirts just because of vegetation. (NM, where vegetation bites back). Normal outdoor wear like sunscreen, hat, work boots. (Since we aren't in industrial areas, you can get away with hiking boots.) I will also probably bring my NMED reflective vest.

That's all I have for now.

Susan

I can probably use extra hands, if I get confirmation. I think it will take 2 days.

I just got a less than 24 hr notice for the sediment/water sampling tomorrow. Sigh....

Hi Susan,

If you could use some extra hands, I can ask Ricardo if he is interested in staying. He is a great guy and handy. He might enjoy seeing how is all done too...

Ricardo,

WIPP has scheduled soil/vegetation sampling for next Wed-Fri. I am making arrangements to be in the Carlsbad office so I can split samples.

Since we don't need double coverage, you can adjust your plans and head home Wednesday morning.

DOE is providing very short notice on sampling activities. I just got less than 24 hours for sediment and surface water sampling to start tomorrow.

Trais,

Cole and I discussed the Carlsbad trips.

I will be going down to Carlsbad March 17-21 and March 31-April 4.

I have reserved a room at the Great Western for the first week, but have not yet reserved a room for the second, and will also work on my in-state travel form today.

I believe Cole will be discussing the April 7-11 and April 14-18 coverage with Susan to see which works best for both of them.

Thank you!

Ricardo

Here is my latest attempt showing availability of staff.
I had already committed to April 7 and 14, so I don't mind keeping those weeks.

Mia is setting up a PO at the Econolodge for staff to use for hotels.

Mar 3-5	Skibitski
Mar 5-7	Steve Holmes
Mar 10-24	Susan (ambient filter collection)
Mar 17-Mar 21	Ricardo and/or Cole
Mar 24-28	Susan and Kim Granzow (ambient filter collection, DPR collection)
Mar 31-Apr 4	Ricardo or Cole (Could have WIPP ESSO)
April 7-11	Susan (or Ricardo) (ambient filter collection)
April 14-18	Susan (or Cole) (Could have WIPP ESSO)
April 21-25	Steve (ambient filter collection)
April 28-May2	Susan or Cole (Could have WIPP ESSO)

NOTE: As soon as we get the new ESSO onboard, I will be down in Carlsbad for 1-2 weeks to train him. At that point we can probably suspend the schedule.

FYI

Hi Trais,

As for my available times, I need to correct that I will not be available the week of April 21.

Vall and Lucia will be going to Indianapolis the week of April 28 so we don't want to be apart for two weeks, and again I won't be available the week of the 28 because I'll need to look after our home and pets..

I apologize for not catching this earlier.

Ricardo

Also, Cole is scheduled for his 40 hour hazwopper March, 24-28.

Ricardo is available the weeks of:

- March 10, 17, 24, 31
- April 7, 21

But would have to have an advance or have the hotel in a PO.

He is not available the weeks of:

- March 3
- April 14, 28

Subject: My staff's availability for work in Carlsbad

Steve is available next week Wednesday thru Friday.

Ricardo is available the whole week of March 17-21 but would have to have an advance or have the hotel in a PO.

Cole is also available for a whole week at a time – any time.
