Attached are the filter performance data, action items listing and Station A/B data.

Below is a summary of activities: (Please note, activities and dates are subject to change. Please verify the most current dates of any information provided).

- Underground remains in Filtration Mode utilizing Fan 860B.
- The CAM at Station B is functioning. The CAM continues to report 0.1 DAC-hrs. The alarm is set at 40 DAC-hrs. NWP returned approximately 90 additional workers to the site today.
- SS and AIS Shaft/Rope Inspections: The weekly MSHA inspection of the AIS and SS was successfully performed Monday with no issues.
- Contamination survey to the waste face (Phase 3):
  - Activity 2, 3 & 4: Entry commenced at 8:30 this morning.

- The remaining HEPA filters have been received and NWP is on schedule for complete replacement commencing on 5/12.
- The current Mod filter DPs are: 856 HEPA Bank – 1.75; 857 HEPA Bank – 1.36. The alarm set point is 3.0.
- Shipments of TRU waste from LANL to WCS continue. Ten shipments are scheduled this week (32 Total).
- Surveying of the TRUPACT-II containers scheduled for routine maintenance has been paused to revisit the safety basis documents.

Room 6 Panel 7 20,000 dpm. Nothing at waste face. There was a camera on a pole to see into the waste – photos are not available. Team debrief will be today or tomorrow morning.

Nick Stone: Thanks DOE for allowing EPA to listen in. He didn't have latest copy of re-entry procedure (same for us). Did they walk into Panel 6 to see if brattice cloth was intact? Scott: looked intact. Will they be able to see waste face side in exhaust side of drift?

Action Items: Steve Kouba: Opening on 20 and 25. NMED Questions. NMED still reviewing those. NMED is discussing with people today.

HEPA pictures were posted in ICLN.

Working on plans in WHB

Tom Peake: More about the 20,000 dpm? How was that measured? Handheld or swiped? DOE: Don't know. Will take as action item to get more info. Will post pictures too.

Nick Stone: Will this be discussed at town hall meeting? DOE: Yes. 5:30 city council chambers.

Brad Dempsey (EPA Las Vegas): How will they find out what happened? DOE: Don't know....24 rows so there may be something behind the waste face. DOE will reconvene and plan next step.

**NOTE CALL-IN NUMBER: 1 888 413 3490, Code 7175394**

Thank you
