Subject: Video from yesterday

I just uploaded the video from yesterday on the portal. It is a MP4 file which has been compressed.

Please let me know if you have any problems downloading it (I don't think you can view it on-line).

Thanks

Oba

Subject: WIPP Information - For Call Today

Attached are the action items listing and Station A/B data. If you are listening to the call, they have started progressing through the mine.

Below is a summary of activities: (Please note, activities and dates are subject to change. Please verify the most current dates of any information provided).

- Underground remains in Filtration Mode utilizing Fan 860B. Plans on Thursday are to switch to Fan 860C.

- Cleaning of the soot from the fire event in the Waste Handling Tower is on-hold today due to the underground entry; Cleaning of the 3rd/4th floor will continue tomorrow.
- Weekly MSHA inspections of the AIS & SS were performed yesterday.
- The next mine entry is underway. During this entry, additional photos will be taken and filter paper exchanged from samplers in Panel 7. An additional entry is anticipated on Saturday and may involve the collection of samples.
- 10 Shipments to WCS are scheduled for the week. Contract discussions are underway between WCS and NTP to obtain additional space.
