CCP operations at Hanford have been discontinued and no transuranic (TRU) waste characterization activities have been performed at Hanford since the previous recertification audit.

The audit team will evaluate available documentation in support of TRU waste characterization activities performed at Hanford from the date of the previous recertification audit (A-14-16, conducted May 20 – 21, 2014), complete applicable C6 checklists, and review objective evidence.

The audit will be performed in the Skeen-Whitlock Building in Carlsbad, New Mexico. See the attachment, Processes and Equipment to be Reviewed During Audit A-15-19 of Hanford/CCP, for a listing of items that will be included in this evaluation.
