Subject: CBFO Semi-Annual CAR Trend Analysis Report for January 1 through June 30, 2015

The Carlsbad Field Office (CBFO) Corrective Action Report (CAR) Trend Analysis Report has been completed for the reporting period January 1 through June 30, 2015. Deficiencies identified during assessment activities conducted by CBFO of core participants subject to the CBFO Quality Assurance Program Document have been assigned trend codes and are presented for analysis in accordance with CBFO Management Procedure (MP) 3.2, Revision 1, Deficiency Trending and Reporting.

The trend report is presented in a new format that provides statistics and summarizes trend information. The first chart plots the average number of days to closure for CARs closed within the first six-month reporting period for 2015, and compares the new average to the averages of the previous three six-month periods.

Bar charts showing trend codes are provided incorporating data from both CARs and findings that were corrected during the assessments (CDA). The trend codes allow identification of issues under two categories, Activity and Deficiency. The Activity category identifies functional areas such as waste characterization, and project activities such as Acceptable Knowledge (AK), Data Validation (DV), definition of Work Processes (WP), and Software (SW). The Deficiency category addresses areas within an activity such as training (03), performance of work (05), and documentation of work (06). A trend code key is included in the report.

Significant points of interest regarding trends, events, and issues from the attached charts are provided in the following table.

Table with 3 rows and 2 columns. Row 1: Number of CARs Closed During the Reporting Period. Row 2: Number of Assessments Performed and Number of CARs Generated. Row 3: Average Number of Days to CAR Closure.

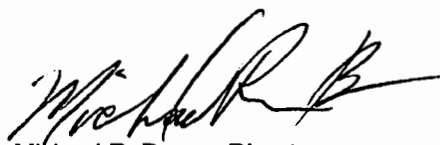

AUG 14 2015

Comparison of Activity Trend codes with the last 6-month period	Activity Code	This Period	Jul-Dec 2014	Difference
	DC	11	3	+8
	RM	12	1	+11
	TQ	12	2	+10
	WP	16	4	+12
DC – Document Control RM – Records Management TQ – Training and Qualifications WP – Work Processes NOTE: The increase in the number of CARs issued accounts for the increase in difference of number of codes assigned. The Activity codes above are the items with the highest number of codes identified during the 6-month reporting period of January through June 2015.				
Comparison of Deficiency Trend codes with the last 6-month period	Deficiency Code	This Period	Jul-Dec 2014	Difference
	01	22	10	+12
	05	41	16	+25
	06	19	2	+17
01 – Definition of Work Process and Proceduralization 05 – Performance of Work 06 – Documentation of Work NOTE: The increase in the number of CARs issued accounts for the increase in difference of number of codes assigned. The Deficiency codes above are the items with the highest number of codes identified during the 6-month reporting period of January through June 2015.				

Managers are requested to review the trends on the attached chart with appropriate personnel within their organizations. If you have any questions, please contact the CBFO Office of Quality Assurance.

Sincerely,

Michael R. Brown, Director
Office of Quality Assurance

Carlsbad Field Office Corrective Action 6-Month Trend Report

Report Period:

1/1/2015 to 6/30/2015

Prepared By:

James R. Schultz 8/14/15

Approved By:

Michael R. B... 8/14/2015
CBFO QA DIRECTOR

Descriptive Statistics for those CARs Closed During the Report Period (Current 6-Month Period)

Number of CARs Closed: 19	Average Days to Closure: 148
Maximum Days to Closure: 300	Minimum Days to Closure: 59

Average Number of Days to CAR Closure (Over 4 6-Month Periods)

Activity Trend Codes (Current 6-Month Period)

Deficiency Trend Codes (Current 6-Month Period)

Assumptions:

Days to Closure: Number of days between date of CAR notification letter to date CBFO Quality Assurance Director signs CAR with closure.
 6-month Periods: Only CARs that are actually CLOSED are considered in a given 6-month period.
 The final value shown in the Average Number of Days to CAR Closure chart is the Average of the 4, 6-Month Periods.
 Activity and Deficiency Trend Code charts cover CARs that were either opened or closed during the current 6-month period.

Carlsbad Field Office Corrective Action 6-Month Trend Report

Trend Code Description

Code	Activity Description	Code	Activity Description
AK	Acceptable Knowledge	01	Definition of Work Process and Proceduralization
AA	Audits and Assessments	02	Identification of Work Steps
CA	Corrective Action Program (CARs and NCRs)	03	Training Materials and/or Training Presentations
CD	Characterization Data	04	Untrained Personnel
DC	Document Control	05	Performance of Work
DE	Design Control and Engineering	06	Documentation of Work
DV	Data Validation	07	Records Processing
GG	Gas Generation Testing (GGT)		
HG	Headspace Gas Sampling and Analysis (HGAS)		
MA	Management		
MT	Control of Measuring and Test Equipment (M&TE)		
ND	Non-Destructive Assay (NDA)		
OR	Organization and Resources		
PD	Performance Demonstration Program (PDP)		
PS	Procurement		
QA	QA Program and Implementation		
RI	Receiving / Receipt Inspection		
RM	Records Management		
RT	Real-Time Radiography (RTR)		
SA	Safety/Operations		
ST	Sampling Techniques		
SW	Software		
TL	TRUPACT-II Leak Testing		
TQ	Training and Qualifications		
TR	Transportation		
VE	Visual Examination (VE)		
WH	Waste Handling Operations		
WP	Work Processes
