Subject: WIPP- Preliminary Notification

Folks,

At approximately 11:15 this morning, I received a phone call from CBFO/NWP staff (George, Rick, Bob and Anthony) regarding a preliminary notification of the provisional application of the D001 code to a population of CIN-01 containers that were disposed of at WIPP. This information is the result of LANL's Extent of Condition (EOC) review.

LANL informed WIPP yesterday that they would be submitting a formal disclosure to NMED on Monday, 8/31. The disclosure will document the total number of CIN-01 containers for which the D001 code will be applied. Following the official notification from LANL to WIPP (likely on Monday), WIPP will give NMED its formal 24-hour notification. I have also given permission for them to send in a 15-day written report instead of the 5-day report.

I imagine we'll know more early next week when the total number of containers has been disclosed.

Please let me know if you have any questions.

Katie
