Pilot Plant Hazardous Waste Facility Permit Number: NM4890139088-TSDF

Dear Mr. Kieling:

On February 13, 2015, the Permittees submitted a Class 1 Permit Modification Notification (PMN) to the NMED to add new emergency response equipment to Table D-6 *Emergency Equipment Maintained at the Waste Isolation Pilot Plant* and Table E-1, *Inspection Schedule/Procedures* of the WIPP Hazardous Waste Facility Permit (Permit). At the time the PMN was submitted, not all of the new equipment had been placed into service at the WIPP facility. Because of this, the Permittees committed to inform the NMED when such equipment was placed into service. Pursuant to this commitment, the following new emergency response equipment is now in service:

- Underground Fire Suppression Vehicles (2)

Effective immediately, this equipment is subject to the weekly inspection in accordance with procedure WP 12-FP0033.
