Subject: FW: WCS Data

Ricardo,

We made 39 shipments from LANL to WCS and 2 shipments of LANL waste via Idaho for a total of 41 shipments. We have a total of 582 containers at WCS.

114 of those 582 are nitrate salts and cannot be shipped anywhere. There is no shipping container certified to ship this waste now that we realize the hazard involved. Any handling even onsite will be made with extra precautions in place.

Let me know if you need anything else.

Best,
Dave
